SUMMARY

Enthusiastic Front-End Developer with a good foundation in HTML5, CSS3, JavaScript, React.js, and Bootstrap. Adept at crafting responsive and user-friendly interfaces, with a proven track record of collaborating effectively with cross-functional teams to deliver robust and scalable code. Committed to staying ahead of industry trends and continuously enhancing user experiences to drive business growth.

KEY SKILLS

HTML JavaScript Bootstrap Git & Github CSS React.js Java VS Code

INTERNSHIPS

CodeAlpha June 2024 - July 2024

Web Developement Intern (Remote)

- Calculator Web App: Developed a basic calculator using HTML, CSS, and JavaScript, featuring essential arithmetic functions. The project showcases my skills in frontend development and interactive UI design.
- **Portfolio Website**: Developed a responsive portfolio website using HTML, CSS, JavaScript, Particle.js, and Tawk API. The project features an engaging design with interactive elements and real-time chat support.

Bharat Intern March 2024 - April 2024

Web Development Intern (Remote)

- **Weather Web App**: Developed a responsive Weather App with HTML, CSS, and JavaScript, integrating a third-party API for real-time data. Enhanced skills in frontend development and problem-solving.
- **Netflix Homepage**: Created a responsive Netflix homepage using HTML and CSS, featuring a visually engaging layout. Demonstrated skills in modern web design and adaptable user interfaces across devices.

PROJECTS

- Password Manager Web App: PassMG is a React-based password manager app leveraging UUID for unique IDs, React Toastify for notifications, and local storage for persistent data. Features include password CRUD operations, responsive design with Flexbox/CSS Grid, and form validation for data integrity.
- **To-Do Web App**: Developed a To-do web app using React.js and Tailwind CSS, completed within one month. The app allows users to efficiently manage tasks with an intuitive and responsive interface.
